

Kolokwium/Credit SCAPULA AUREA

tura set 10.00-12.00

1	Right hepatic duct
2	Right L4/L5 zygapophysial (intervertebral) joint
3	Tendinous arch of left levator ani m. / Left obturator fascia
4	Right adductor magnus m.
5	Hepatogastric ligament
6	Right hepatic v.
7	Tendon of left extensor carpi radialis longus m.
8	Posterior cord of right brachial plexus
9	Left lumbar artery
10	Semilunar fold of ceacum
11	Inferior belly of left omohyoid m.
12	Right sacrospinous ligament
13	Right supraclavicular n.
14	Endothoracic fascia
15	Right bulbospongiosus m.
16	Urethrovaginal sphincter m.
17	Rectal ampulla / Rectum
18	Coronary sinus
19	Deep dorsal vein of penis
20	Parietal layer of left tunica vaginalis testis
21	Left superior ophthalmic v.
22	Right triangular fold / Right palatoglossal arch
23	Left superior intercostal v.
24	Thyroid ima a.
25	Left transverse process of T11 (thoracic) vertebra
26	Spinal root of left accessory n.
27	Cartilaginous part of left auditory tube
28	Carina of left principal bronchus
29	Atrioventricular septum
30	Apicoposterior segment (S1+2) of left lung
31	Superior mesenteric artery

32	Superior hypogastric plexus
33	Right common iliac lymph node
34	Left cochlea
35	Left lateral cricoarytenoid m.
36	Left semispinalis capitis m.
37	Left triangular fold
38	(Left) hypothalamus
39	Right posterior inferior cerebellar a.
40	Left basal v.
41	Right obturator internus m.
42	Calcar avis
43	Left spinoglenoid notch / Left inferior scapular notch
44	Accumbens nucleus
45	Left Meckel's cave
46	Left carotid canal
47	Alveus
48	Crus of fornix
49	Left dorsal tubercle
50	Anterior longitudinal ligament /Body of L2 vertebra
